

JAPANESE BUSINESS ALLIANCE FOR SMART ENERGY WORLDWIDE (JASE-WORLD)

In addition to representatives from government and related institutions, a total of 76 members (57 companies and 19 associations) from Japanese business sector have joined the “Japanese Business Alliance for Smart Energy Worldwide” (JASE-World) after its establishment on October 30th, 2008.

The Energy Conservation Center, Japan (ECCJ), the national center for energy conservation in Japan, is the secretariat of JASE-World and supports its major activities. This includes publishing “Japanese State-of-the-art Smart Energy Products & Technologies”, a compilation of 162 of the innovative systems and technologies (developed and owned by its members) related to energy efficiency and conservation and renewable energy.

JAPANESE STATE-OF-THE-ART SMART ENERGY PRODUCTS & TECHNOLOGIES

- Provides information on the features of the product / technology using easy to understand pictures and charts to enhance readability.
- Classifies products and technologies into 7 sectors (Residence, Office, Factory, Construction & Transportation, Electricity, Iron & Steel, Petrochemicals) for easy reference.
- Provides contact points for easy access to further information.
- Easy to download from the website of JASE-World in four different languages.
