

NIKKO Company

COMPANY DESCRIPTION

NIKKO is a manufacturer of small wind turbines with over 2,000 wind turbines installed across Japan. We offer a variety of turbines starting from 200W, 1kW, 4kW up to 10kW for residential and small commercial applications.

INTRODUCING OUR PRODUCTS

Based on over 10 years of experience in the development and production of small wind turbines, NIKKO wind turbines offer high performance, high quality and reliability. The 1kW model, which will be introduced in the US market this year, was designed with the following features.

- Low Cut-in Speed – Starts generating power at low wind speeds
- Passive Pitch Control – Offers self-adjusting pitch control at high wind speeds for additional safety and power generation

1kW model specifications

- Blade Span : 1.98 m
- Rated Wind Speed : 12 m/s (26.8 mph)
- Rated Output Power : 1kW
- Max Output Power : 1.5kW
- Start up Wind Speed : 1.0 – 1.5 m/s (3.4 mph)
- Cut-In Wind Speed : 2.5 m/s (5.6 mph)
- Survival Wind Speed : 60 m/s (134 mph)

OPPORTUNITIES FOR PARTNERS

We are looking for experienced dealers and installers that are interested in working with NIKKO, a technical and quality oriented manufacturer, to promote this new product in the US market. Product launch is scheduled for Q2 of 2010. Product introduction and training sessions will be available.
